## ***What might SDUK offer as a physical space?***

Russ Hope, 15 February 2015

This session came out of a discussion about what SDUK might offer online. I had to go for a wee so I missed how we segued from talking about virtual space to talking about physical space... but... y'know... it was a productive segue, so here it is.

### **A place for directors to work**

- a quiet, affordable place to meet collaborators, from designers to casting agents,
- with desk space,
- and wifi,
- and a printer,
- and rehearsal space (boy, wouldn't that be great!)

### **A hub to learn and recharge**

- with shelves filled with playscripts and manuals,
- and comfy chairs,
- and a kettle.

### **A revenue stream for SDUK**

- by designing a space that's got everything directors need
- then hiring it out, 9 to 5.
